Physical well-being

- This can be defined as lifestyle and behaviour choices that ensure good health and reduce the risk of preventable diseases and conditions while promoting a balanced state of mind, body, and spirit.
- While each of these forms of well-being can be defined separately, it is clear that they are all interconnected.
- Emotional well-being in particular is about accepting and expressing feelings in a way that can help maintain positive mental and physical health.

What is Mental Health?

- According to the World health organization, Mental health is the absence of mental disorders. It is an integral and essential part of one's health.
- Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act as we cope with life. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood and ageing.
- Mental health is important because it can help you to:
 1. Cope with the stresses of life
 2. Be physically healthy
 3. Have good relationships
 4. Make meaningful contributions to your community
 5. Work productively
 6. Realize your full potential

REPORT ON WEBINAR

CHILDREN IDEAS, RIGHTS AND NUTRITION

SCHOOL OF HUMANITIES AND SOCIAL SCIENCES

DEPARTMENT OF ENGLISH

30/11/2021

Azadi Ka Amrit Mahotsav is a Government of India initiative to celebrate and commemorate 75 years of India and its glorious history, people, culture and achievements. It is dedicated to the people of India for their contribution in India's evolutionary journey. The Ministry of Women and Child Development observed 'Child Rights Week' in November with a special focus on empowering children.

The Department of English, Lingaya's Vidyapeeth organized a Webinar on **Children Ideas, Rights and Nutrition** on 30th November 2021 under the able guidance of Professor Anand Prakash Pathak. This webinar emphasised the dietary needs, psychological wellbeing and rights of Indian children. More than 150 people registered for the webinar.

The event was well conducted by the Department of English. Dean Academics, Professor Jaskiran Kaur was kind enough to take time out of her busy schedule to be a part of this Webinar. Associate Dean, School of Humanities and Social Sciences, Professor Anand Pathak began the event by welcoming everyone. Dr. Priya Raghav, Dr. Hanan Khalid Khan and Ms. Lavanya Paluri were actively engaged with the Webinar.

The first speaker was Ms. Ritu Bhatia, an eminent dietician and nutritionist with over twelve years of experience in her field. She enlightened the listeners on how diet plays a pivotal role in maintaining the health of children. She also touched upon the importance of keeping healthy sleeping habits. Apart from that she also emphasized on how mental health has a huge role to play in the overall wellbeing of children.

Ms. Durgesh Bakshi, a senior advocate and a Mediator trained and certified by Mediation and Conciliation Project Committee of Supreme Court of India. She gave a wonderful session regarding Child Rights. She began by defining what exactly constitutes the rights of children. She then went on to give detailed information regarding the legal rights of children vis a vis child marriage, female feticide, trafficking of children, sexual exploitation of children and various other offences against children. Indeed, her session was an eye opener for everyone.

The last speaker was Ms. Garima Gupta, a trained child psychologist with over 17 years of experience. She discussed in detail as to what constitutes mental health and the role of

society in playing an active role in our emotional wellbeing. She focused on how children too can suffer from anxiety related disorders. She shared some basic techniques to lower anxiety. She also pointed out how depression related disorders are on the rise amongst children. Post Traumatic Stress Disorders, Attention Deficit Hyperactivity Disorders, eating disorders like Anorexia Nervosa and Bulimia are more common in urban children she pointed out.

All the speakers were experts in their domains and the Webinar was a highly informative one and was well received. The webinar surely enlightened everyone touching upon the various aspects of empowering our children. The event ended with a valedictory session by Dr. Rashmi Maniar.

180 students showcased their talents and participated in various activities. Students arranged for food stalls to be put up in the ground, the entire Vidyapeeth wore a festive look for the event. Rangoli, Face painting, Best out of waste and Matki/Diya decoration competitions were conducted in the open ground whereas the Talent show and other events were conducted in the auditorium.

The stage area for Rangoli competition was ablaze with a riot of warm, vibrant colours which helped set the mood for the upcoming festival. The creative designs won the

hearts of the onlookers and the judges had a tough time, indeed, to make the final decision. The participants had poured their hearts out in creating beautiful posters pertaining to the theme of 'Swasth Diwali – Harit Diwali'.

Honorable Chancellor Sir, Dr Picheshwar Gadde addressed the gathering in the auditorium. He praised the efforts of the SOHSS and announced the dates of Zest, to be conducted in December. Respected Dean Madam declared the event open. Madam's words provided a much needed impetus to both the participants and the organisers, they were a refreshing draft of fresh air.

Staff and students of all the different schools of the Vidyapeeth, applauded the participants and enjoyed themselves throughout the event. The show stopper of the event was without doubt, Sobhan Nidaee, a student of MA-English from Afghanistan, who stole the hearts of the audience with his golden, melodious voice. He is a YouTube star performer and he proved his mettle on the stage. Two Kashmiri girls, Yuvani and Nitika, set the stage on fire with their Dogri dance, very dainty, gentle and graceful.

The eagerly awaited Prize distribution ceremony brought a lot of cheer to many, some of the announcements were expected outcomes and were greeted with rounds of cheer and uproar. Respected Dean Madam, Associate Dean Prof. Anand Pathak gave away the prizes to the winners. Respected Registrar Sir, Mr. Mahesh Nautiyal proposed the Vote of thanks. His words of gratitude were befitting enough to bring the event to its closure.

The event was a long awaited one conducted after the Covid Pandemic. It was well received by one and all, everyone enjoyed to its full.

WORLD WATER DAY

WATER -The Elixir for Life

What is World Water Day?

- World Water Day raises awareness of the lack of clean water around the world. Did you know that over 2 billion people worldwide still don't have access to clean drinking water?
- The day takes place every year on 7 April.
- World Water day is organized by the UN, and they have the aim of making sure that clean water is available to everyone by 2030.

How does the climate affect water?

- When there is a drought, this can mean that there's not enough water to go around. Then, water restrictions have to be put in place.
- Droughts happen when rains don't come or are delayed and this can be caused by climate change. We can all do our part by aiming to reduce the amount of water we use.
- World Water Day aims to draw attention to issues like this.

www.worldwaterday.org
#Water2me

What does water mean to you?

- Water is the basis of all life
- Water distinguishes Earth from other planets
- One can survive without food for a few weeks, not without WATER!

About Water

- 97% of the water on the Earth is salt water. However, only 3% percent is fresh water; slightly over $\frac{2}{3}$ of this is frozen in glaciers and polar ice caps.
- The remaining unfrozen freshwater is found mainly as groundwater, with only a small fraction present above ground or in the air.
- Fresh water is a renewable resource

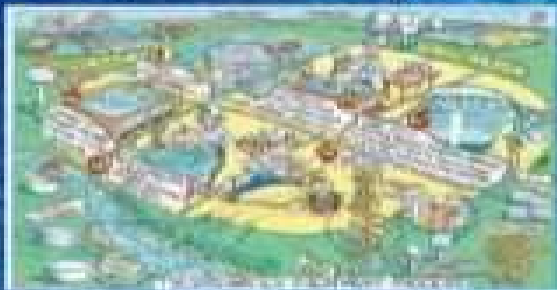

How do people use Water Resources?

Divide

Household

- Washing dishes
- Fill the car with water
- Watering the plants
- Putting out the fire
- Give water for the cows
- Watering the grass
- Washing the car

Picture:

Personal Use

- Washing the teeth
- Drinking water
- Take a shower
- Going to the bathroom
- Walk in the pool for recovering health

Picture:

Recreational activities

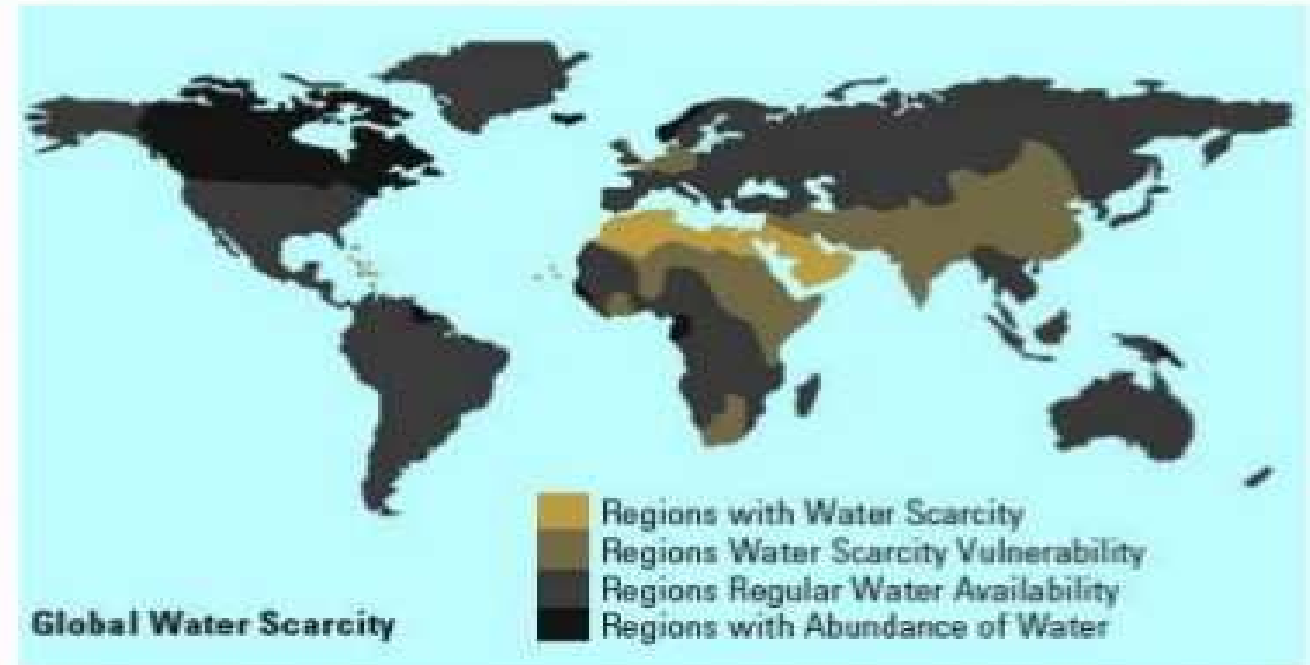

- Go to the pool.
- Go to the beach.
- Walk in the pool for recovering health.
- Skiing in the mountains.
- Fish in the lakes.
- Play with a ball in the river.
- Surfeit in the ocean

Picture:

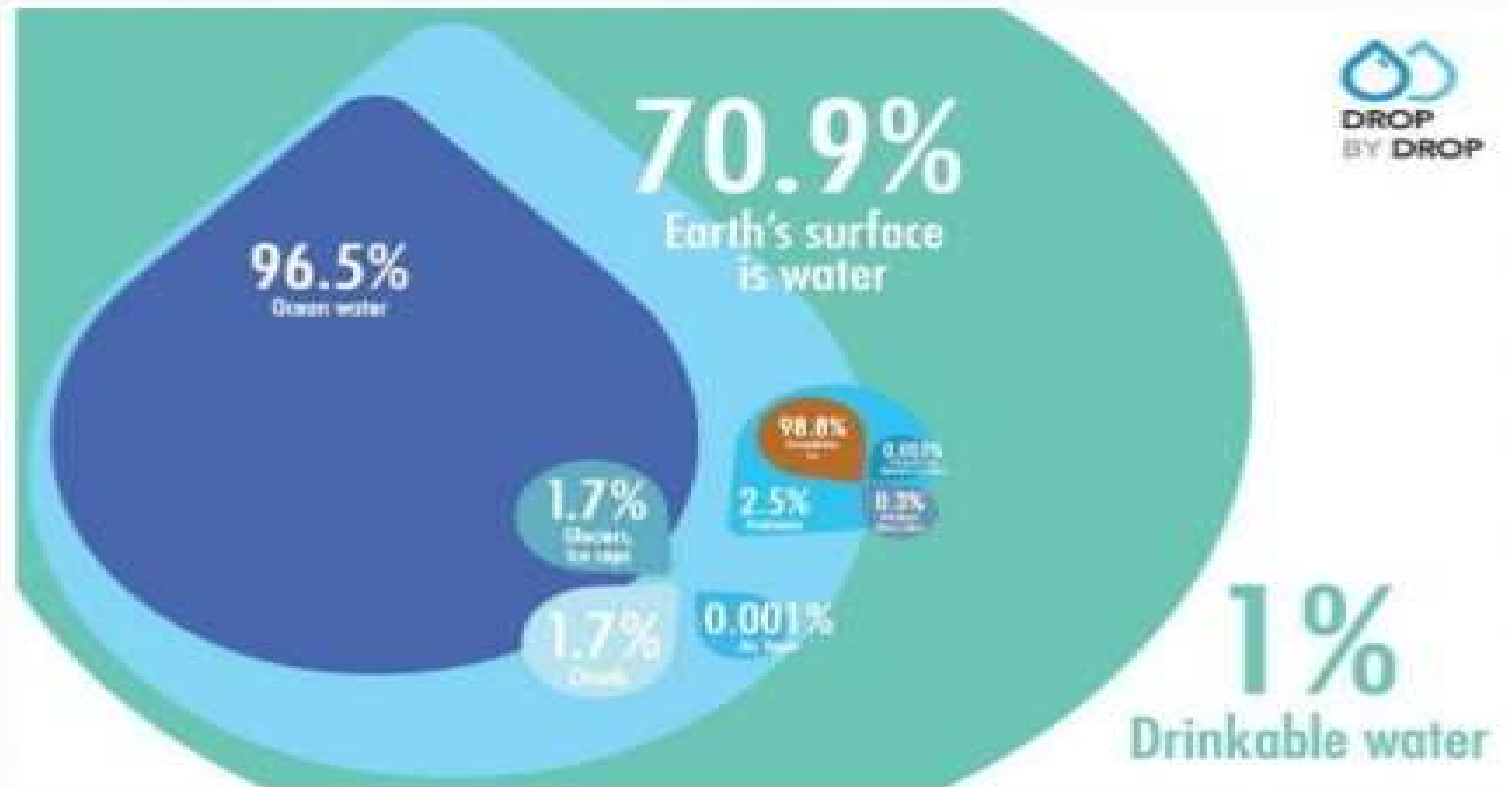

Why is it important to save water?

The current rate at which water is being used will lead to complete scarcity if not cared for promptly

Amount of water on planet

Effects of Water Shortage

- Spread of Drought
- Decline of the Agricultural Industry
- Not a drop of Water to Drink!!
- Imbalance in the economy.
- We will have to import water from other states and countries.
- Sadness and despair....

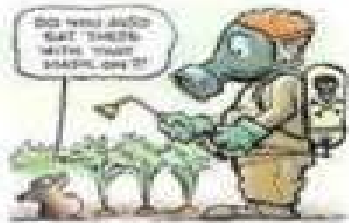

Let's do this...

Some Useful Tips To Avoid Water pollution

Recycle Your Motor Oil

Often, people pour motor oil down the drain after performing an oil change and this can certainly pollute local water supplies. Recycle any motor oil you want to get rid of instead of pour it into drain.

Use Natural Pesticides and Fertilizers

Try to use more natural alternatives that will leave less impact on the environment. Go for pesticides that include ingredients like pyrethrum and insecticide soap and there are more natural choices for fertilizer such as animal dung, lawn clippings and ash from wood. In fact, many of these choices can enrich soil much better than most commercial fertilizers.

Dispose Prescriptions Medicines Correctly

DO NOT flush pills, liquid or powder medications or drugs down the toilet. Dispose unused medicine into the trash bin.

Minimize the Usage Amount

Use the minimum amount of detergent and/or bleach when you are washing clothes or dishes.

Do Not Treat Toilet as Wastebasket

Avoid using the toilet as a wastebasket. Most tissues, wrappers, dust cloths, and other paper goods should be properly discarded in a wastebasket. The fiber reinforced cleaning products that have become popular should never be discarded in the toilet.

Stop Pouring F.O.G (Fat Oil Grease)

DO NOT pour fat from cooking or any other type of fat, oil, or grease down the sink. Keep a "fat jar" under the sink to collect the fat and discard in the solid waste when full.

Use Environmentally Friendly Products

Be mindful that some of the household products we use that could potentially harm local water sources. For example, certain kinds of soap are not actually biodegradable. Soap that is biodegradable will not leave any kind of lasting imprint on water sources once it goes down the drain. Vinegar can also be a great alternative to bleach and chemical based cleaners.

Solution For Water Pollution

3R's to prevent Water Pollution

- Refuse : Say No to Water Pollution
- Reduce : Minimize the use of water
- Recycle : Recycle water (By Water Treatment)

Let's begin with...

Save Water at Home

- Close the tap after using water.
- Repair Leaked Water Pipe
- Use less Water

लिंभ्याज विद्यापीठ के दो दिवसीय जेस्ट-2 के 18 के अंतिम दिन स्टार नाइट का आयोजन हार्डी संधु द्वारा किया गया। इस अवसर पर उनके द्वारा पेश किए पंजाबी गीतों का दर्शकों ने खूब आनन्द उठाया। इस मौके पर उन्होंने अपने हिट गीत सोच से श्रोताओं को झूमने पर मजबूर कर दिया। पटियाला में जन्मे गायक हार्डी संधु का पूरा नाम हर्दीबिन्दर सिंह संधू है। उन्होंने क्रिकेटर के रूप में अपना कैरियर शुरू किया। वे एक दाएं हाथ के तेज गेंदबाज के रूप में दर्शकों से पंजाब के लिए खेले। उन्होंने प्रथम श्रेणी क्रिकेट में सिर्फ तीन मैच खेले और 12 विकेट लिए। हालांकि कहा गया कि सभी माध्यम से प्रशिक्षण पूर्ण होने के बावजूद उन्होंने बिना वार्मिंग के प्रवेश किया और घायल हो गए। इस कारण संधु का ध्यान खेल से गायन में स्थानांतरित हो गया। वे युवाओं में खूब लोकप्रिय हैं। स्टार नाइट में हार्डी सन्धु व उनकी टीम ने करीब दो घंटे तक उपस्थित दर्शकों का खूब मनोरंजन किया।
